

Burton Group Confirms Radiant Logic as the Market Leader

In the recent in-depth report "Virtual Directories: Valuable Present, Promising Future", Burton Group affirms the growth of the virtual directory market and identifies Radiant Logic as the market leader. The report identifies RadiantOne VDS as standing out against competing products in many areas including; sophisticated caching options with real time event detection, ability to understand and manage complex object relationships, and support for Web Services.

This is not a surprise for Radiant Logic customers and partners and Radiant are committed to continued success and growth in the future.
